

Residential Base Rates and Service Charges

The following charges and base rates became effective in January 2021. The rates below do not reflect the [Purchased Gas Adjustment](#), which is passed through from gas and major pipeline suppliers and can fluctuate monthly based on the price of natural gas. Rate schedules are subject to gross receipts taxes, city and state taxes, franchise fees, where applicable.

About your bill

Typical residential bills include the following items:

- **Customer Charge** – This fixed monthly amount covers the cost of providing service to your location. These charges are billed monthly.
- **Distribution Charge** – This is a grouping of several costs including your base rate, a charge for energy conservation programs, legacy pipeline replacement and other costs. The portion of the distribution charge that will increase as a result of our rate request is the base rate. The non-base rate portions make up less than half of the grouping and are adjusted annually. This grouping is calculated based on your usage.
- **PGA Charge** – The Purchased Gas Adjustment is the cost of gas purchased for you by Peoples Gas and delivered to your premises. This charge is passed through from gas and major pipeline suppliers to Peoples Gas and then to consumers, and can fluctuate monthly based on the price of natural gas.
- **Florida Gross Receipts Tax** – A tax is imposed on gross receipts from utility services that are delivered to retail customers in Florida, in accordance with Chapter 203 of the Florida Statutes. The tax is levied on utility companies, which collect the tax from all customers, unless exempt, and remit to the state.
- **Franchise Fee** – This fee is levied by a municipality for the right to utilize public property for the purpose of providing natural gas service. Like taxes, the fee is collected by Peoples Gas and is remitted to the municipality.
