

Important Information About Your 2026 Bill

Thank you for choosing Peoples Gas to deliver safe and resilient natural gas to your business. We are committed to safely and efficiently serving our customers while prudently managing our operations. In August, Peoples Gas filed a joint motion with intervening parties, including the Office of Public Counsel, requesting the Florida Public Service Commission (PSC) approve a settlement agreement that resolves all issues in our rate request proceeding. The PSC approved the settlement this fall, resulting in an overall increase that is less than we originally proposed. Impacts to the Customer Charge and Distribution Charge portions of your bill, as well as other charges which are adjusted annually, are outlined below.

Typical components of a commercial bill

- **Customer Charge** – This fixed monthly amount covers the cost of providing service to your location.
- **Distribution Charge** – This is a grouping of several costs including your base rate, a charge for energy conservation programs, pipeline replacement and other costs. The portion of the distribution charge that will increase as a result of our rate request is the base rate. The other portions are adjusted annually. In 2026, charges for pipeline replacement will decrease for all but the SGS rate class and conservation programs will decrease for all customers. Actual impact will vary by rate class.
- **PGA Charge** – If you don't use a third-party gas supplier, the Purchased Gas Adjustment (PGA) is the cost of gas purchased for you by Peoples Gas. This charge is passed through from suppliers to consumers and can fluctuate monthly within an approved range based on the price of natural gas. We do not mark up or profit from this charge. Because of projected increases for the cost of natural gas, we are increasing the current PGA range cap from \$1.00135 per therm to \$1.16057 per therm for 2026. This does not necessarily mean your monthly rate will increase.
- **Swing Charge** – This charge covers the costs that are incurred by Peoples Gas to balance the difference between a customer's actual daily usage and the gas delivered by your third-party gas supplier.
- **Florida Gross Receipts Tax** – Utilities collect this tax from customers and remit it to the state without markup.
- **Franchise Fee** – Similar to taxes, this fee is collected from customers and remitted to a municipality.
